Course Goals and Learning Outcomes:

PURPOSE

This course is intended to enable students to prepare for children's ministry as a professional career. It will acquaint the students with major programming components which are currently being used in children's ministry and allow them to understand their purpose and also to investigate the current resources and materials being used in each component.

General Learning Objectives (*Course Goals*):

This course seeks to:

1. Identify the major components of a church-based children's ministry program.
2. Acquaint students with the philosophical foundations of a local church's children's ministry program.
3. Create an understanding of the specific purposes for a variety of children's ministry programs.
4. Describe the planning process of children's ministry programs.
5. Contribute to the process of students being able to successfully implement studied programs within the local church setting.

Specific Behavioral Objectives (*Learning Outcomes*):
As a result of the activities and study in this course, the student should be able to:
1. Develop a "purpose of ministry statement" for each programming component that will be used in a local church children's ministry.
2. Observe and evaluate children's programming in a local church setting.
3. Create a "service schedule" for each of the major children's programming components.
4. Develop a resource file for each of the major children's programming components.
5. Design a yearly calendar of children's ministry programming for the local church.
6. Participate in an informed discussion concerning team building within each of the major programming components.

Major Topics:

A. Components of children's ministry programming
B. Purposeful programming
C. Essentials of planning
D. Event schedules
E. Evaluations of programs
F. Team-building
G. Resources

Course Assessments:

A. **Text/Media.** All text/media is evaluated in the threaded discussions and assignments.
B. **Threaded Discussions.** The threaded discussions are an opportunity for students to demonstrate their knowledge of the course material and interact with fellow students. Just doing an initial post and/or response will not guarantee any point value. Discussions will be evaluated as follows: a) on the depth of engagement with the discussion topic and/or issue; b) on the depth of understanding of the topic and/or issue; and c) on the depth of interaction with the other students. An initial post is required (evaluation of "a" and "b" above) and then response posts interacting to other students' initial posts (evaluation of "c" above). Once the discussion deadline is reached, there will be no further opportunity to attain points for that discussion. If you have further questions on how these are evaluated, please contact your instructor.
C. **Unit Assignments.** There are several different types of unit assignments throughout the course that will provide an opportunity for the student to engage and integrate the course materials into specific types of ministry to children.
D. **Exams.** There will be a Final Exam at the end of the course to show the student's grasp of the course material.

Evaluation:

A. Threaded Discussions   202
B. Unit Assignments   698
C. Exams   100

Grading Scale:

The standardized grading scale provides a uniform foundation from which to assess your performance.

Grade	Quality Points per Credit	Score
A	4.0	930 - 1000
A-	3.7	900 - 929
B+	3.3	870 - 899
B	3.0	830 – 869
B-	2.7	800 – 829
C+	2.3	770 – 799
C	2.0	730 – 769
C-	1.7	700 – 729
D+	1.3	670 – 699
D	1.0	600 – 669
F	.0	0 - 599

Letter Grade Equivalencies:

A = Clearly stands out as excellent performance. Has unusually sharp insights into material and initiates thoughtful questions. Sees many sides of an issue. Articulates well and writes logically and clearly. Integrates ideas previously learned from this and other disciplines. Anticipates next steps in progression of ideas. Example "A" work should be of such nature that it could be put on reserve for all cohort members to review and emulate. The "A" cohort member is, in fact, an example for others to follow.

B = Demonstrates a solid comprehension of the subject matter and always accomplishes all course requirements. Serves as an active participant and listener. Communicates orally and in writing at an acceptable level for a cohort member. Work shows intuition and creativity. Example "B" work indicates good quality of performance and is given in recognition for solid work; a "B" should be considered a good grade and awarded to those who submit assignments of quality less than the exemplary work described above.

C = Quality and quantity of work is average. Has average comprehension, communication skills, or initiative. Requirements of the assignments are addressed at least minimally.

D = Quality and quantity of work is below average. Has marginal comprehension, communication skills, or initiative. Requirements of the assignments are addressed at below acceptable levels.

F = Quality and quantity of work is unacceptable and does not qualify the student to progress to a more advanced level of work.

Unit and Time Distribution:

The time to complete each unit is approximately 14-17 hours per week on average for a three hour course. Actual assignment completion times will vary. A more detailed breakdown of each assignment can be found within the course.

POLICIES

Attendance Policy:

At Lee University student success is directly related to the student actively attending and engaging in the course. Online courses are no different from classroom courses in this regard; however, participation must be defined in a different manner.

Online courses will have weekly mechanisms for student participation, which can be documented by submission/completion of assignments, participation in threaded discussions, and/or specific communication with the instructor as outlined within the syllabus.

Academic Honesty Policy/Information:

Cheating is defined as the use or attempted use of unauthorized materials or receiving unauthorized assistance or communication during any academic exercise.

Examples of cheating include:
- Submitting work for academic evaluation that is not the your own.
- Receiving assistance from another person during an examination.
- Using prepared notes or materials during an examination.
- Permitting another student to copy your work.
- Plagiarism.
- Falsification.
- Other misrepresentations of academic achievement submitted for evaluation or a grade.

As stated in the LEE UNIVERSITY Catalog, plagiarism is presenting as your own work the words, ideas, opinions, theories, or thoughts which are not common knowledge. Students who present others' words or ideas as their own without fair attribution (documentation) are guilty of plagiarizing. Unfair attribution includes, but is not limited to, a direct quotation of all or part of another's words without appropriately identifying the source. It is also unfair attribution to have included a source within a Works Cited page without having carefully cited the source within the text of the document. Plagiarism also includes, but is not limited to, the following acts when performed without fair attribution:
a. directly quoting all or part of another person's words without quotation marks, as appropriate to the discipline.
b. paraphrasing all or part of another person's words without documentation.
c. stating an idea, theory, or formula as your own when it actually originated with another person.
d. purchasing (or receiving in any other manner) a term paper or other assignment, which is the work of another person, and submitting that work as if it were one's own.

Late Policy:

- No credit is available for postings of any kind made in the **Threaded Discussions** after a given Unit ends.
- If your faculty approves your submission of late assignments, each assignment score will be penalized 10% per day up to five days late. After the fifth day, late assignments will not be

accepted. (Note: An assignment is a paper, a project, a team presentation, etc., **not** a discussion.)
- No late assignments will be accepted after the close of the final unit.
