Late work:	This course is designed for you to proceed at your own pace. However, I urge you to take the pretest for the first competency during the first three days of class and to progress at an accelerated rate. Unlike most traditional college programs, the courses in this program last 7-weeks, which means that it is easy to fall behind. In order to avoid this, allocate sufficient time to complete all work in an efficient and qualitative manner, so that you are able to pass all four post-tests within the time allowed.								
Time commitment:	Online courses are typically just as time intensive, and may be more rigorous, than traditional courses. Many students claim that online courses require more time and commitment. As you begin this course, you would be wise to schedule 8 or more hours per week for studying materials and completing assignments. Falling behind in this course is particularly problematic because the concepts we cover are cumulative. This means that not becoming proficient with information and objectives presented and assessed in a particular week can lead to low scores for that week as well as in subsequent weeks.								
Class Participation:	<p>Online courses require your active participation. Here are some tips for success:</p> <ul style="list-style-type: none"> • In courses with discussion forums, you learn from one another by posting questions, justifying your comments, and providing multiple perspectives. When you prepare for discussions through thoughtful reflection, you contribute to your own successful learning experience as well as to the experience of your peers. • Log in to the course frequently (at least several times per week for long semesters and daily for summer sessions) and check your email as I will be sending weekly emails, as well as post Announcements. This will keep you 								

	<p>appraised of any course updates, progress in discussions, assignment information, and messages requiring immediate attention.</p> <ul style="list-style-type: none"> • Be aware of and keep up with the Course Schedule in the Syllabus.
Academic Integrity:	<p>The successful functioning of the academic community demands honesty, which is the basis of respect for both ideas and persons. In the academic community, there is an ongoing assumption of academic integrity at all levels. There is the expectation that work will be independently thoughtful and responsible as to its sources of information and inspiration. Honesty is an appropriate consideration in other ways as well, including but not limited to the responsible use of library resources, responsible conduct in examinations, and the responsible use of the Internet.</p>
Attendance and Withdrawal Policies:	<p>Attendance (regular participation in the online classroom) is essential for maintaining the best learning environment.</p> <ul style="list-style-type: none"> • You will be expected to log on to the course site 2-3 times per week until you have finished all work successfully. • Regular communication with the instructor is encouraged. If you have any questions about the material covered in this class, don't hesitate to contact your instructor. He/she is here to help you. • If, for whatever reason, you decide to withdraw from this course, be sure to check the final withdrawal date.
Course Rules and Expectations:	<p>Your Expectations of Me:</p> <ul style="list-style-type: none"> • I will treat you with courtesy and respect. • I will respond to your telephone calls and e-mails within a reasonable period of time. • I will do my best to help you prepare for the future classes. • I will model high standards of academic honesty and integrity. <p>My Expectations of You:</p> <ul style="list-style-type: none"> • You will treat me and your fellow classmates with courtesy and respect. • You will contact me if you have questions or if you don't understand something. • You will do your best to master the material and to submit work that you are proud to put your name on. • You will display high standards of academic honesty and integrity.

Build Rapport:	If you find that you have any trouble keeping up with assignments or other aspects of the course, make sure you let your Instructor know as early as possible. As you will find, building rapport and effective communications are the keys to becoming an effective professional. Make sure that you are proactive in informing your Instructor when difficulties arise during the term so that we can help you find a solution.
Netiquette:	<ul style="list-style-type: none"> • Behind every name there is a person. Respect each other. We are all in this together. • Keep in mind you are taking a college class. Something that would be inappropriate in a traditional class is also inappropriate in an online class. • Be aware that typing in all capital letters indicates shouting • Be careful with humor and sarcasm. Both can be misunderstood. • Review all discussion postings before posting your own to prevent redundancy.
