Course Overview

COURSE GOAL STATEMENT

We will analyze different answers to the question, “What is a good human life?” and to some related questions. By design, this course covers hard and controversial questions. (If a question had an obvious, uncontroversial answer, then philosophers would not bother arguing about it.) Contrary to some common views, good Philosophy consists of clear and precise reasoning, not expressions of preferences or vague assertions.

INSTRUCTIONAL OBJECTIVES

At the completion of this course, each student will be expected to demonstrate measurable outcomes of course objectives by the following means:

Knowledge

1. Students who successfully complete the course will demonstrate understanding of how different philosophers have responded to the questions of the course.

Skills

1. Students who successfully complete the course will develop the skills of reading difficult texts, evaluating other people’s arguments, and constructing arguments of your own.

Attitudes/Dispositions

1. Students who successfully complete the course will develop a disposition to answer important questions by using this skill, not merely by relying on feelings and intuitions.

REQUIRED TEXTBOOKS

All required readings are available through PantherLearn. You do not need to purchase textbooks for this class.

- You and I will exchange emails using only our ODU email addresses; check your inbox as many times as possible during the day, but at least **twice**. Email and PantherLearn News Items count as *official* instructor communication. Email is the absolute best way to contact me with any questions, comments, or concerns.
- You may also contact me via phone call and/or text message at the following mobile number:**
- You are required to complete all assignments by the dates indicated in the syllabus. Submit all assignments, unless otherwise instructed, through PantherLearn. Unless I indicate otherwise, all assignments are due by 11:59 pm on the indicated due date shown in the Course Schedule.
- I will let you know of any changes as far in advance as possible.

DEADLINES, LATE, AND MAKE-UP WORK POLICY [Update this policy to meet your course needs.]

- All assignments are open and available for submission well in advance of the due date, and so I rarely accept late assignments.
- I understand, however, that sometimes life happens so **I will accept late assignments with a 5-point deduction for each day late. All assignments must be submitted at the end of the term with ample time for me to grade them. I will let you know the last day of the term I will accept late assignments.**

ASSESSMENT FEEDBACK [Update this policy to meet your course needs.]

I will post grades in the PantherLearn gradebook for all assignments within **96 hours** of the due date, or of the date received if later, with my comments as appropriate.

RUBRICS [Delete if rubrics are not used in your course.]

Assignments will be scored according to grading rubrics. A grading rubric is a list of specific and measurable criteria for evaluating course work. View grading rubrics prior to beginning work on an assignment to help guide your successful completion of the task. View rubrics a second time once a grade has been posted in order to see instructor feedback.

ACADEMIC INTEGRITY [Update this policy to meet your course needs.]

Plagiarism is not tolerated in this course. **All plagiarized work will receive a score of zero, and I will complete the Academic Disciplinary Form to submit to the Office of Academic Affairs.** The Library has an excellent website discussing all aspects of academic integrity at ODU, which I strongly encourage you to read [here](#).

ODU Online Student Policies

ACCELERATED FORMAT

You are enrolled in an Accelerated format class at Ohio Dominican University. Taking an Accelerated format class means that you will be achieving the same learning outcomes as a full-term semester in only **8 weeks**. It is essential for students to be organized and stay on top of their work in an Accelerated format class. The time frame in an Accelerated format class is compressed, **but the standards and expectations remain the same as a full-term class.**

TECHNOLOGY SKILLS AND EQUIPMENT

Online students are expected to possess a basic understanding of how to use and navigate a computer. To be a successful online student, you should be able to:

- Download, install, launch, and quit applications such as Microsoft Word or a web browser.
- Create, edit, and save files using word processing, spreadsheet, or presentation software applications.
- Configure and use an email client to retrieve, view, create, and send email messages including messages with attachments.

- Update your computer operating system and computer software applications.
- Access and change computer operating system settings and computer software application preferences, options, settings.
- Use a webcam and microphone to record video presentations.

STUDENT PARTICIPATION AND ATTENDANCE

- *Time*: the expectation is that you log in and spend 7-9 hours working on this course each week, including watching videos, reading course materials, and completing assignments. The time you spend on the course will vary depending on how you prefer to experience the course, for example, in one or two sittings or over several different sittings.
- *Before Class Starts*: you should have access to the course before the first day of class. Spend that time reading the syllabus, reviewing all items in the Start Here module, reading any assignment details provided, and making a plan for when you will get the work done.
- *No Shows*: students will be reported to the Registrar as a “no show” if they have not participated in the course during the first full week of classes. Participation includes completing any graded or non-graded assignments, such as an Introduce Yourself discussion post. When the student is reported as a “no show,” the Registrar’s office will then delete the student from the class.
- *Attendance*: while there is no official attendance policy in online courses, please do not take a vacation without Internet access or put the class on hold because life becomes too hectic, thinking you can make up all the work at the end of the term. The course is designed to pace your learning, allowing you to gradually build skills which will help you succeed. If you experience, or anticipate you will experience, an absence from the course due to technical or medical reasons, please contact me directly so we can discuss your options.

DROPPING THE COURSE

University policies will be followed; indicating to your instructor a desire to drop the course does not mean the course has been dropped. Consult your academic advisor, or the academic calendar, for exact dates for formally dropping a course without penalty.

ONLINE STUDENT CONDUCT AND (N)ETIQUETTE

Taking an online course and corresponding via the Internet presents communicators with a challenging task. It is important to remember several points of etiquette that will smooth communication between us.

- Read first, write later. It is important to read all posts or comments of students and myself within the course discussion before personally commenting to prevent repeating commentary or asking questions that have already been answered.
- Avoid language that may come across as strong or offensive. Language can be easily misinterpreted in written communication. Review your written communication to make sure that outsiders reading it would not be offended, then post the statement. Humor and sarcasm may easily be misinterpreted as well, so try to be as matter of fact and professional as possible.
- Follow the language rules of the Internet. Do not write using all capital letters because it will appear as shouting. Avoid the use of “texting” jargon and abbreviations as they can be misinterpreted. The use of emoticons, however, is appropriate and in fact can be helpful when used to convey nonverbal feelings ;)
- Consider the privacy of others. Ask permission prior to giving out a classmate's email address or other information.
- No inappropriate material. Do not forward virus warnings, chain letters, jokes, etc., to classmates or instructors. The sharing of pornographic material is forbidden.

REQUIRED STYLE

Ohio Dominican University has adopted as its style guide the *MLA Handbook for Writers of Research Papers (MLA)* for general studies courses in the undergraduate programs. In this course, it is expected that all references, citations, and formats for submitted work must follow MLA format.

WRITTEN ASSIGNMENT GRADING CRITERIA [Update this policy to meet your course needs.]

All written work should be presented in a professional style and follow the basic principles of effective written communication.

- Adherence to MLA standards, including double-spaced; 1-inch margins; 12 pt. font.
- Free from grammatical and typographical errors.
- Demonstrates college-level critical thinking, reflection, and analysis skills.
- Demonstrates the ability to develop independent thought and original ideas; do not simply paraphrase readings or other sources. All college-level work requires deep analysis of information, application of information, and synthesis of original concepts or solutions.
- All written work submitted will be graded on both composition and content.

All written assignments must be submitted through PantherLearn where your assignments may be checked for originality by Turnitin.
