Time Commitment

Effective time management is possibly the single most critical element to your academic success. To do well in this online class you should plan your time wisely to maximize your learning through the completion of readings, discussions, and assignments. Because of our accelerated, seven-week term, TU online courses are designed with the expectation that you dedicate a little over six (6) hours per credit hour to course activities and preparation each week. For example, for successful completion of a three-credit, seven-week online course you should reserve roughly twenty (20) hours per week.

To help plan your time and keep on track toward successful course completion, note the distinctive rhythm of assignment due dates:

1. All times assume Eastern Time (GMT-4).
2. Weeks begin at 12:00 a.m. ET on Monday and end at 11:55 p.m. ET on Sunday.
3. Unless otherwise noted, initial assignments or discussion posts are due by 11:55 p.m. ET on Wednesdays.
4. Additional assignments or follow-up discussion posts are due by 11:55 p.m. ET on Saturdays, and
5. Major assignments and reflections are typically due by 11:55 p.m. ET on Sundays.

Learning Activities

You will be assessed via forum participation discussions, written assignments. You will be asked to participate in an Immersion Experience, write a Major Field Project, and develop a threat assessment/threat management (TA/TM) protocol. These projects are similar to experiences you will encounter as professionals in this field.

Tips for Success

Successful online learning requires a good deal of self-discipline and self-direction. As seekers of the truth, we should be willing to challenge and review one another’s academic work in a spirit of respectful comradery and constructiveness. You should accept constructive feedback as a gift. Your course is a place for you to stretch and grow as you benefit from the expertise, knowledge, experience and diverse perspectives of your instructor and peers. Constructive feedback will challenge you to stretch your own thinking, thereby expanding your knowledge, understanding and application.

To get the most out of your learning experience, you should actively engage (participate) in ALL course activities. Course elements in any given week are arranged chronologically. To complete a week, simply work your way "down the page" through all of the course materials and activities.

Your Instructor Will Expect You to:

- Thoroughly review orientation materials (Start Here) within the first 48 hours of the term.
- Monitor your TU email account daily for important updates and announcements.
- Take ownership of your learning experience and act in a proactive, self-directed manner. That means:
  - Fully participate in all learning activities.
  - Complete assignments as described in rubrics or other instructions.
  - Submit all work on time and in the specified format (e.g. APA format for citations).
  - Utilize and incorporate instructor provided feedback to improve your work.
  - Ask questions so you can better understand course material or assignments.
  - Use the highest standards of intellectual honesty and integrity. For more information, see the TU Library guide: Digital Literacy: Netiquette and Internet Safety.
  - Treat others respectfully and demonstrate "netiquette" (online politeness and respectfulness) at all times. TU celebrates cultural uniqueness and expects all students to be considerate and thoughtful throughout their learning experiences.

You Should Expect Your Instructors to:

In general, your instructors should advocate for your success as a learner and help guide you toward successful completion of the course activities and most importantly, attainment of the course learning outcomes. To accomplish this, your instructors should:

- Post an introductory announcement/email at the beginning of each week to provide updates and help you prepare for the week’s activities.
• Maintain an active and engaged presence in all course activities and throughout the course.

• Respond to your emailed questions within 48 hours, if not sooner.

• Clearly communicate any absences or expected non-participation due to extenuating circumstances. For example, "I will be traveling to attend a funeral this week and may not be able to respond to questions or participate in forums for a couple of days."

• When grading your work, your instructors should:
  o clearly indicate their grading approach (what they like to see in submitted work as well as what types of errors they tend to penalize more harshly),
  o thoroughly review and evaluate your submissions in a timely manner (in less than 5 days for most assignments), and
  o provide constructive feedback that indicates the strengths and weaknesses of your work and provides suggestions on how you can improve your performance on future assignments.
